Sun Expands to 9,888 Acres of Delta Oil Project in Texas, USA

- Sun Resources secures 8th tranche of leases within the Woodbine Tight Oil Play, expanding its holding to 9,888 net acres in the Delta Oil Project
- Sun continues to pursue the growth of its Delta Oil Project towards a target of 15,000 net acres of oil and gas leases
- Sun's footprint in the Woodbine Tight Oil Play increased to 16,262 net acres, and targeting at least 35,000 gross acres

The Board of Sun Resources NL ("Sun Resources", "Sun" or "the Company") is pleased to provide an update on positive developments with respect to Sun's Delta Oil Project, Texas.

As previously announced, the Company is continuing to progressively acquire tranches of oil and gas leases that comprise the Delta Oil Project in Leon County, Texas, USA, to grow its interest materially beyond 10,000 net acres.

The Company has completed the acquisition of a further 1,541 acres, growing it total Delta Oil Project footprint to 9,888 net acres. This transaction takes Sun's net lease position in Leon County, across its three projects (the Delta Oil Project, the Amerril Oil Project and the Richland Oil Project), to 16,262 net acres.

Sun is continuing to work with the vendor of the Delta Oil Project to complete the acquisition of the initial 10,000 acres, and grow the Delta Oil Project toward a target of 15,000 net acres, subject to completion of due diligence.

Sun Resources looks forward to providing further updates to shareholders as the acquisition is progressed over the coming weeks, and as the company progresses towards development of its Woodbine tight oil projects.

This document contains forward-looking statements which reflect management's expectations regarding expected target dates. These forward-looking statements relate to, among other things, the expected closing dates of tranches 1 and tranche 2, and the closing date of the acquisition, and can generally be identified by words such as "will", "expects", "intends", or similar expressions. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances are forward-looking statements. These statements are not historical facts but instead represent management's expectations, estimates and projections regarding future events. Statements relating to "reserves" or "resources" are deemed to be forward-looking statements, as they involve the implied assessment, based on certain estimates and assumptions that some or all of the resources and reserves described can be profitably produced in the future.

Although management believes the expectations reflected in such forward-looking statements are reasonable, forward-looking statements are based on the opinions, assumptions and estimates of management at the date the statements are made, and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those projected in the forward-looking statements. In addition, if any of the assumptions or estimates made by management prove to be incorrect, actual results and developments are likely to differ, and may differ materially, from those expressed or implied by the forward-looking statements contained in this document. Such assumptions include, but are not limited to, general economic, market and business conditions and corporate strategy. Accordingly, investors are cautioned not to place undue reliance on such statements.

All of the forward-looking information in this document is expressly qualified by these cautionary statements. Forward-looking information contained herein is made as of the date of this document and Sun Resources disclaims any obligation to update any forward-looking information, whether as a result of new information, future events or results or otherwise, except as required by law.
